Survey results and status

The Role of the National Archives of Iceland as a surveillance organization has been strengthened by new laws set in 2014.

The National Archive conducts surveys to be able to understand the status of records management in the public sector

Does your organization use IT systems for record management

2012 Survey:

173 participants 72% used IT systems 28% did not.

2016 Survey:

160 participants 67% used IT systems 33% did not.
participants
